HAIR SUPPLIES

## Client Maintenance & Care Guide

---

Jadore Hair Supplies recommends that you read the below guidelines carefully to ensure the longevity of your new Hair Extensions and healthy hair and scalp.

# Recommended Jadore Haircare Products

---

## Volume Boost Shampoo

Breathe new life into tired locks with our shampoo. Enriched with nourishing vitamins and minerals, this holy grail wash will invigorate and strengthen lifeless hair, promoting healthy growth.

This shampoo intensifies natural shine, protects colour vibrancy and provides heat-styling protection. Advanced acidic technology balances the pH level of your hair and repairs hair damage. Anti-irritant purslane extract soothes scalp irritation.

## Intense Moisture Repair Conditioner

For concentrated conditioning of all hair types. Hydrates, smoothes and protects hair while preventing frizz and split ends.

Packed with hydrating botanicals instantly detangling and smoothing hair. Provides anti-fade protection to colour treated hair. Amino acids restore the fibre and reinforce hair leaving it strong, soft and shiny. Superior conditioning treatment for human hair extensions.

## Intense Moisture Mask

Our deep conditioning treatment is recommended as a weekly or fortnightly hair care routine for hair extensions.

It helps the hair recover and be replenished after being exposed to heat styling, sun, wind and water (chlorine, salt water). It is highly recommended for long term wear of hair extensions and will ensure soft, manageable locks.

## Protect & Condition Spray

We spent months perfecting the formula for our Protect and Condition Spray. This product will protect the hair against heat styling, environmental damages, and will give the hair a beautiful shine when used. You will absolutely love the results, and the lush rose scent!

## Rose Oil Smoothing Serum

With organic rose and argan oil, this serum is rich in vitamin E, phenols, carotenes, squalene, and fatty acids, fighting against drying, dehydrating and the loss of elasticity.

A luxurious elixir to restore over-processed hair and environmental free radicals - it also revives, hydrates and detangles hair. Ultra light miracle rose oil leaves no residue and or build-up, and provides a silky finish and brilliant shine.

## Blonde Shampoo

Need to maintain your beautiful blonde, but don't want to compromise the quality or warranty on your extensions? This brightening, extension safe blonde shampoo neutralises warmth in both natural hair and extensions whilst gently cleansing away dirt and product build up.

This gentle sulphate free formula cleanses effectively without stripping the hair, leaving your hair and your extensions, fresh, bright and beautifully toned.

## Blonde Moisture Mask

This moisture boosting treatment mask is your weekly restoration treatment, both to refresh your natural, cool blonde tones but also the shine and silkiness of your extensions.

Enriched with Argan oil, Coconut and Macadamia extracts this ultra-nourishing treatment mask will breathe life back into tired, dry mid lengths and ends of both natural hair and extensions.

## Extension Boar Bristle Brush

With beautifully soft bristles, this is the perfect high-quality finishing brush for adding shine, preventing frizz, and conditioning the hair. Boar bristles naturally distribute the sebaceous oils produced in the scalp throughout the rest of the hair.

## Do's

---

- Use Jadore Hair Supplies' hair care range to warrant your extensions
- Concentrate shampoo on own scalp rather than extensions, be thorough to remove excess oil, product buildup or dead skin cells • Concentrate conditioner on mid lengths to ends only
- Applying Jadore Intense Moisture Hydrating Mask once per week to rehydrate
- Apply Jadore Smoothing Oil to mid lengths and ends daily
- Brush hair daily with Jadore Boar Bristle extension brush
- Apply Jadore Protect and Condition Spray on hair or prior to using heat styling tools.
- Extensions require maintenance every 4-6 weeks to keep the natural hair in optimal condition
- Dry hair gently with a hair dryer on low-medium heat - high heat can compromise the adhesive on tape hair extensions
- Secure hair when sleeping, a loose plait or pony is best
- When swimming, wear hair in a loose plait, never a bun or top knot
- Rinse hair straight after swimming in chlorine or salt water. Ensure you are washing and drying your bonds at your earliest convenience

## Dont's

---

- DO NOT use shampoo and conditioner that contain any sulphate, protein, keratin or have a high alcohol content - this includes medicated or toning shampoos - using these ingredients will void your warranty
- DO NOT wash your hair for 48-72 hours following tape and skin weft hair extension application
- DO NOT sleep with wet hair - the hair is weaker when wet and the moisture can breed bacteria and weaken Tape bond
- DO NOT use hairspray, oils, or products containing citrus near the root area with tape and skin weft hair extensions as this can cause slippage
- DO NOT colour or tone your hair whilst hair extensions are in the hair as this may affect the adhesion of your tapes causing them to slip and discolour
- DO NOT bleach hair extensions, use only a semi-permanent colour to go darker or tone to a similar shade

## Facts

---

Jadore insists on only supplying hair of the highest grade, double drawn Remy Hair which includes characteristics such as remy and double drawn hair of the best quality. You will notice these characteristics as soon as you feel and see our premium quality hair.

Our customer service team are always available and eager to answer any of your queries, and also to conveniently place orders 24/7 on our online shop.

We want your extensions to last you a long time and continue to feel fabulous, this is why we only recommend the use of our specifically formulated Jadore hair care products. By following the correct care and maintenance our Indian hair can last between 4-6 months and our Russian hair between 6-9 months.
